E. H. MURDOCK UNCONSCIOUS SINCE YESTERDAY AFTERNOON

E. H. Murdock of 28 North East street, fell in a stupor about 4:30 p.m. yesterday afternoon in the store of the Glasgow Tailors on West Milwaukee street, and this afternoon was still in a semi-unconscious state. Mr. Murdock seems to have suffered a paralytic stroke of the right side, although the attending physician this morning could not definitely state the cause of the trouble. A consultation, it was planned, was to be held late this afternoon.

In the Zuyder Zee.

In Holland, according to popular tradition, the ruins of several large cities lie in the basin of the Zuyder Zee. These cities were submerged by the North sea breaking its banks and overflowing the country, it is believed.

COMPETITION SAVES HIS LIFE.

Passaic Falls, N. J., Feb. 5.—Charles Steinhilber stood at the brink of the falls, melodramatically gesturing his intention to commit suicide. As his twin song, he sang "Die Wacht am Rhein."

Patrolman John Jorlett saw him, but could not urge the perilous position.

Jorlett scratched his head, and started a competitive concert. He sang "It's a Long Way to Tipperary."

Steinhilber got mad, and came down to fight. He rests in jail, instead of the river.

STREET CAR RELIEF COMES IN "JITNEY" TO CITIES OF WEST

Turn to New Nickle Autobuses Proves to Be Protest From Poor Service of Traction Companies.

The word "jitney" is originally of the parlance of the side-show barker. Its English is a nickle. In some sections of the United States it is still used in the same old sense today. In the west, however, it is rapidly losing its old meaning and is being used to denote a "jitney" which might be defined as "any self propelled conveyance which carries passengers for a nickle fare."

The coast cities named their new 5-cent auto vehicles "jitneys." But American slang eliminated the bus addition and they are now known throughout the country simply as "The Jitneys."

The autobus is coming. Already street car companies of the great cities see the handwriting on the wall, but what to do to bring back former customers who are taking their daily trip in the "jitney" is a perplexing question. The jitney is highly popular.

Less than six weeks old, the autobus idea has taken the United States by storm. Fourteen cities in the west have already established lines and the streets are pouring into the coffers of the operators.

The merits of the new device have been under investigation, and while conditions in every city were found to be considerably different the consensus of opinion was that the jitney was a mushroom growth of diverse cities.

In some cities any person who hangs out a sign on his "jitney" car to the effect that it is a particular machine will carry passengers for 5-cent fare, will be accepted to go into the jitney bus business.

In other cities, a special license, filing of bonds, joining a union, or presentation of other formalities are required. The eastern cities are undertaking the revision of traffic ordinances to make room for the new contraption. The street car companies are particularly frantic in their efforts to cut the throat of the invader, this small wagon, peril to their fat monopoly of fare collections.

Routes in the cities vary from short distances parallel to car tracks to long stretches in the country. The start of one man has been the signal for hundreds of other automobile owners to participate in the transportation business. Cars are being driven from the dilapidated and cheap variety about that was bought for \$50 to the imposing double-decker Fifth avenue bus to the new New York City. In all, the jitney is a startling report to the contrary, street car companies have suffered loss of nickels resultant on bus competition.

It is interesting to note the rapid development of the jitney lines in cities where one man had the hardihood to be the pioneer—Kansas City, Mo., for example. One man here conceived the idea and began operating a four mile route, two miles each way, in four days he had three competitors. The idea is taking rapidly and it has been stated on sound authority that within the period of four months Kansas City will be literally swarmed with jitneys. The rapid growth has opened a new line of business and already an organization is in formation to secure a city franchise for the operators and plan regular routes which will be non-competing.

The jitneys are now overrunning the entire Pacific coast. Foregone conclusions point to the fact that they have come to stay, and that their popularity will grow with leaps and bounds.

The ever increasing complaints of patrons of the street car lines is being voiced in the former's rapid turn to the new conveyances.

People are turning their patronage to the jitney busses as a protest against the poor service which is being meted out by the traction companies. San Francisco is said to now have 300 jitney busses operating in connection with the regular street car service and furthermore San Francisco is making the bus service so satisfactory and each machine making net profits of ten dollars per day.

An ordinance to regulate the bus service is being given consideration by the authorities. The tentative arrangements are at \$1.00 per hour for each owner, a license fee of \$60 per month to be levied on each 5-cent car, and time schedules to be fixed, and strictly adhered to.

Among the cities which are thus far satisfied with the new busses are New York City, Houston, Tex., Los Angeles, Seattle, Portland, Ore., San Francisco, San Diego, where they have been tried out at the fair, and at Fort Worth, Texas, and at Cleveland.

Inasmuch as several Wisconsin cities are said to be considering the awarding of franchises for the bus lines, the result of their investigations.

IF YOU ARE TEN POUNDS OR MORE UNDER WEIGHT

And Want to Put On Flesh

If you are thin, undeveloped and under weight and would like to quickly put on ten or more pounds of sound, healthy flesh between your skin and bones, walk right into any drug store today, step on his penny weighing scales and see exactly what your weight is now. Then step right over to the drug counter and tell the clerk you want six boxes of Sargol the Flesh Builder—a full sixty day treatment—and begin taking the tablets right away. When the tablets are all gone, go back to any drug store, step on his scales again, weigh yourself once more and if you haven't gained at least ten pounds of good solid, healthy flesh, step right over to the drug counter and tell the clerk you want six more boxes of Sargol the Flesh Builder.

may be of considerable interest to Janesville people.

In his refusal to abandon the front door P.A.V.E. system, the Janesville Traction company incurred for itself in Marinette and Menominee also, the almost unanimous ill will of street car patrons.

According to the Menominee Leader, "Even if the termination of the railroad commission soon expected, is against the city of Marinette, the company may have something else to face that will be even more undesirable than the termination of the railroad commission."

The Madison Journal in speaking of the "jitneys" says: "The new device is a jolly ride in a jitney bus for weeks ago. And he most unexpectedly ended up by smashing into the street car bus, and starting a regular revolution in the street car business."

"The 5-cent autobus has taken more than a dozen big American cities by storm. Fourteen cities in the west have already established lines and the streets are pouring into the coffers of the operators."

HOLD ALLEGED WIFE DESERTER FOR TRIAL

John Schneider Has Charges of Desertion Made Against Him by Poormaster Anderson.

Charges of wife desertion were made against John Schneider, who resides at University street, by Poormaster Asa P. Anderson, of the municipal court yesterday afternoon. It is alleged in the complaint that Schneider, left his wife Julia, in destitute circumstances and it is said his treatment to her has been most cruel and inhuman.

Mrs. Schneider is seriously ill and it is claimed by doctors who have investigated the case that her husband's treatment has been most cruel and inhuman.

According to this claim, food for Mrs. Schneider provided through sums by Schneider who in turn would not provide for her proper support.

At five o'clock Thursday, Schneider was arrested by Constable William Dulin and arraigned in court. His examination was held before six o'clock, being unable to furnish the three hundred dollar bail fixed by the court. Schneider is a German and George W. Muenchow acted as court interpreter.

JAMES BLISS DIED THURSDAY EVENING

Old Resident and Drayman of Janesville Succumbs at Son's Home at 6:30 Last Evening.

The death of James H. Bliss, for many years a resident of this city, occurred at six-thirty o'clock last evening at the home of his son, Jay H. Bliss, 202 North Academy street.

Mr. Bliss was for many years a drayman in this city, having sold out to Eugene Fish, Esq. and been an active member of the G. A. R. organization in this section of the state.

When he gave up the dray business, he retired to the south of Janesville, where his wife passed away. For the last number of years, he had made his home at 418 South Bluff street.

Funeral services will be conducted on Saturday afternoon at 2:00 o'clock, at Jay H. Bliss, 202 North Academy street at 2:00 o'clock.

WILL TELL OF WORK IN KOREA ON SUNDAY

Rev. Dr. W. B. Hunt, of Chai Ryung, Will Give Address at Presbyterian Church Sunday Night.

People of Janesville will have the opportunity Sunday evening to hear an address on the wonderful growth of the Korean and the country in general, at the Presbyterian church, by the Rev. Dr. W. B. Hunt, of Chai Ryung, Korea.

Dr. Hunt has been a Japanese soil for the past fifteen years, and is in America only on a short furlough.

For the past fifteen years there has been a steady growth of the Korean church, and the leadership of Dr. Hunt, who has been in Korea since 1900, is a great help to the Korean church.

He will go into details regarding his wonderful ministry among these people. The public is cordially invited to hear him. Seats are free, and no offering will be taken.

DOG LICENSES NET A SUBSTANTIAL SUM

Nearly Eight Hundred Tags Have Been Issued Since Ordinance Has Been in Effect.

The success of the ordinance for the licensing of dogs in the city during the first year of its operation, gives assurance that the ordinance will continue to be successful.

With a few minor changes and features will continue to be successful. There has been a total of 777 tags issued by City Clerk J. P. Hammarlund, eighty-seven of which were replaced by Chief Champion de la Motte.

Chief Champion de la Motte declared that this year when the ordinance is considered there should be a penalty imposed for the replacement of a tag reported to be stolen or lost.

The total cash gained from the sale of the tags amounts to \$1,614, which goes in the police pension fund.

During the enforcement of the ordinance 121 dogs have been shot by the police and a larger number disposed of by the owners who did not wish to purchase the two and one-half dollar licenses. No complaints have been received by the police department.

Some time regarding dogs without licenses, when papers were served by the officers threatening court prosecution the owners either disposed of their canines or purchased tags. This system has been found more effective than having a pound and dog catcher, and will again be tried this year.

The penalty for the replacement of license tags was found to be a necessary change for owners who have been found where dog owners would not pay for the second dog, or sell the tag to another person.

WHEAT TIPS \$1.67; CORN DOWN 3 CENTS

Sharp Advances in Chicago Pit This Morning While Corn Drops

Below Average.

Chicago, Feb. 5.—Wheat advanced sharply today to new high record prices. It took only a brief time for the May option to reach \$1.66 1/2.

The jump of 2 1/2 cents, compared with last night. The previous top notch was set on Feb. 2—\$1.66 1/2. Most of the trading today, however, was in the July delivery in which the upturn was not quite so radical.

Something like a stampede ensued at the market and climbed to \$1.67 for May later in the morning. Sea board officers to renege wheat at Chicago, surprised the bulls and there also was an element of depression in the fact that corn was not keeping the pace upward with the more expensive cereal. The result was a sudden drop of more than 3 cents from the top figure attained by wheat.

A Good Drink At Every Meal

Mate is growing in demand every day. Everyone who becomes accustomed to this delicious drink from South America is enthusiastic in praise of it.

It is so easy to prepare, so tempting in flavor and so satisfying in effect, that it is a desirable table beverage at every meal of the day.

Mate is especially beneficial to the stomach and nerves. It is a wonderful digestor and gives one the full benefit of every atom of food partaken. It soothes and quiets the nerves without any deleterious consequences of any kind.

Woodley's Mate is sold by grocers everywhere. A 50-cent package will make 100 to 200 cups—that is with one boiling, and Mate is really better when boiled the second time.

HOG PRICES LOWER WITH PRICES SLOW

Heavier Receipts Result in Ten Cent Decline in Quotations—Sheep Demand Poor

Chicago, Feb. 5.—Heavier hog receipts today resulted in a slump of ten cents in the price and the top offerings barely reached \$7.10. Sheep demand was also slow, while cattle trade was inactive and prices lower.

The day's price list follows: Cattle—Receipts 4,000; market was active, steers 6.70@7.25; western steers 5.80@6.00; cows and heifers 3.10@3.15; calves 8.00@11.50.

Hogs—Receipts 37,000; market slow, 10c under yesterday's average: light 6.75@7.05; mixed 6.80@7.10; heavy 6.60@7.10; pigs 5.50@5.80; bulk of sales 5.95@7.05.

Sheep—Receipts 9,000; market slow; natives 6.25@7.05; yearlings 7.50@8.30; lambs, native 7.65@9.20.

Butter—Lower. Eggs—Unchanged; receipts 4,248 cases; cases at market, cases included 22@24; ordinary firsts 24@24 1/2; prime firsts 25@25 1/2.

NEW YORK PROMOTERS AFTER GIBBONS BOUT

Wish to Have Packey McFarland and
St. Paul Phantom Mingle—Packey
However Talks Welsh.

(By Hal Sheridan.)
New York, Feb. 5.—There has been
a great deal of chatter and gossip to
the effect that Packey McFarland,
who made the Chicago stockyards
famous, and Mike Gibbons, who ac-
complished a similar feat for St.
Paul, Minn., will do battle in a New
York ring—said ring being located in
Madison Square Garden.

That may be, at least New York
hopes so. The spectacles of Mike
Gibbons and Packey McFarland prizing
about in the same squared circle
would be a sight for the gods. Those
two grand boys, all the time, put up
one grand bout. But it is hard for
anyone who has followed the fight
chatter very closely to believe that
such a match will ever materialize.

The idea of Packey McFarland giv-
ing away a matter of fourteen or
fifteen pounds in weight, especially to
a boxer of the Gibbons caliber, pass-
es our understanding.
"Wild Bill" Donovan, the Yankees'
pilot in 1915, has announced that
out of the players of the club who
other clubs when the season of the
Yankees was put through, he will
keep just three. Hugh Hild, Detroit
outfielder, Walter Pipp, Detroit
first baseman, and Walter Regh, Boston
outfielder, are the ones who stay.
Donovan is mighty sweet on Pipp.
He thinks the youngster is all that
his name implies—a pippin.

M'GOORTY-GIBBONS TO MEET IN HUDSON

Two Claimants for Middleweight
Honors to Clash in Hudson on
March Second for Ten
Rounds.

Mike Gibbons, the uncrowned
champion of middleweights, and Ed-
die McGorty, the Oklahoma prize-
fighter, were signed yesterday to meet in
a ten-round bout before the Hudson
club on March second. The
weight stipulated by the promoters is
145 pounds, but the time of weighing
has not been settled.

Hudson promoters landed this
choice match over the New York
promoters who have been angling
for the match since Gibbons' re-
signed at Milwaukee. The Hud-
son arena holds between six and sev-
en thousand people and the biggest
share of the crowd is expected from
St. Paul as Gibbons' home town folds
have never had an opportunity of see-
ing him in action against a champion-
ship contender.

Milwaukee Bout.
Milwaukee, Feb. 5.—Johnny "Kn-
" Eddie, the St. Paul home for the
fight, will have his hardest
fight when he clashes with
Mike Gibbons, the Indianapolis bat-
tle champion, in a ten-round bout
before the Milwaukee club on March
second.

Chicago Renegades.
Chicago, Feb. 5.—Willie Ritchie,
ex-champion, has signed articles for
a ten-round match with Champion
Freddie Welsh in New York in March
1915. Welsh has been signed for the
match for several weeks and it was
not until yesterday that Ritchie sign-
ed the agreement at California.

"Varsity" Reserves**
Madison Five Who Play Lakota Sat-
urday Have All Star Team of
Varsity Men.

The Lakota Cardinal basketball
team will have the hardest test of
the season Saturday night when they
clash with the University Reserves.
A team composed of the varsity and
the players who are ineligible for
the first team. The Reserves
have been performing against the
Lakotas and are said to be nearly
equal in strength.
Realizing the strength of the in-
dians, the Lakotas will have a "pat"
hand with plenty of triumphs to op-
erate on. The same five which
trimmed the Monroe Cardinals a
week ago will meet the Ro-
sars. The Cardinal schedule is be-
ing rapidly filled with the best teams
in the west and the Saturday game
is expected to be one of the hardest
battles. William Langdon, former
captain of the Cardinals, will head
the Madison bunch and will strength-
en the five.

MORRIS MILLER

Freddie Welsh, lightweight champ,
is a one-meal-a-day prize fighter.
"But you should see that one meal,"
says Harry Pollock, his manager.
Welsh eats his one meal about 6 p. m.,
except, of course, when he has a big
fight scheduled for the night. It's no
wonder Welsh eats everything on the
menu card when he does sit down to
his one meal. From the time he gets
up in the morning until he starts to
eat that one meal, Welsh is doing nothing
but working up a healthy man's
appetite by going through his strenu-
ous training stunts. If you went
through an hour's physical culture
work in the morning, followed it up
by an hour's road work, did some ex-
ercising after that, and then boxed for
eight hours, you would surely be
pretty hungry too. That's what
Welsh does.

Don Armando Marsans is some talk-
er when he gets started. He can
shoot phraseology, both Spanish and
American, to beat the band, but it
has always been imagined that the
Don would cast asparagus only on the
Reds and Buck Herzog. While McGraw
and his Giants would receive his ear-
nest praises. Not so, not, however, in
that dear Havana, a few days ago,
John J. McGraw hunted up the Don,
urged him to return to organized ball,
and offered him a transfer, with vast
emoluments, to the Giants. When out-
burst Don Armando, a bold hideout he-
ro. "I wouldn't play ball with your club,
Senor McGraw, for 20,000. I don't
want to play ball with the New
York baseball writers. One of them
Crane, they know nothing of baseball,
compared with the men who write
baseball in Cincinnati, Chicago and
St. Louis; they aren't even in a kin-
dergarten class; they have always
thought it funny to poke jokes at me,
call me mercenary, and tell how an-
xious I am to play in New York. Noth-
ing doing, now or any other time!"

William Dietz, whose real name is
Lone Star, a full blooded Indian, will
probably be chosen to coach the 1915
Cardinal Indian school football team.
Lone Star is at present an assistant
instructor at the school, but sev-
eral years ago played brilliantly at
tackle and in the backfield. He
weighs 200 pounds, is shrewd like an
ox, is fast as greased lightning on his
feet. For several years he has been
the first assistant of Coach Glenn S.
Warner.

Ed Geers, the veteran driver, plans
to take Anvil, Etowah and a few
other light harness horses to San
Francisco for the June meeting.

Outfielder Mike Mitchell, who has
turned back to Washington by New
York, has been released to the Rich-
mond International league club. Griffith
sought Mitchell to ascertain what
club he would like to go to, but Mike
is in Cuba.

Charles Herzog, who manages the
reckless Reds, has become so badly
afflicted with golfitis that he has about
decided to quit raising crops on his
Maryland farm and will have the farm
laid out as a golf course.

Griffith's system of trying to get his
pitchers from the town lots is com-
mended by J. B. Sheridan of the St.
Louis Globe-Democrat, who pays the
National's manager the following com-
pliment: "We have always thought
that Griffith was the smartest man in
baseball. Now we know it. Griff says
he likes hot pitchers better than ball-
fews that have come up through four
or five years' experience in the bet-
ter leagues. Reason? The kids have
fresh arms. Every ball a youngster
pitches wears his arm, and many of
them just ruin wings in the minors,
where they are allowed to get past
with bad motions, etc. Griff catches
the young, fresh arm and teaches it
something. Then he has a pitcher.
Note that no pitcher on his club did
a day's work in a league before Griff-
ith got him. Even Johnson never
played in a regular league before go-
ing to Washington."

Now is a good time to sell that
stove you have no use for.

**MIKE GIBBONS SETS
PACE FOR TRAINING.**

Mike Gibbons showed the
fistic world something new
when he hit upon the idea of
boxing two men at once in the
gymnasium to increase his
speed for the bout recently won
from Jimmy Clabby, Charley
White, the Chicago lightweight,
adopted the same method in
preparing for his second meet-
ing with Freddie Welsh (which
failed), and said the effect had
been wonderful.
He believed, too, that the
strenuous work had quickened
his eyes. This, however, was
before he was taken ill.

WAUKESHA CONTEST AFTER CHURCH GAME

Blues Are in Fine Fettle for Game
With Spring City Aspirants in
High School Gymnasium
Tonight.

Waukesha high school basketball
quint will furnish the attraction at
the high school gymnasium tonight,
when the scheduled contest with the
Bower City team is staged. The game
will determine which team has the
better opportunity of going ahead in
the title race for southern Wisconsin
honors, and eventually into the state
tournament at Appleton for the state
title.

Janesville is confident, and expects
to double the score on their opponents
from the Spring city. Janesville has
two disadvantages—lack of weight
and lack of height. Speed is about
the only way the blue players can
make up for the two drawbacks.
They have developed considerably
since the Rockford game.
The preliminary contest will be be-
tween two church teams, the Bap-
tists and Catholics. This opening
contest will start promptly at 7:30.

LEE TAKES HONORS IN BOWLING EVENT

Secures Score of 568 in Miller's Tour-
nament, Which Closed Last
Evening.

Honors in singles at Miller's bow-
ling tournament were won by Lee
with a score of 568. Cook was
second with 559. The contest was
in for third place with the following
score: 188, 193 and 191, total 571.
Ryan was second with 555. Other
scores are as follows: Abraham,
Penger, 527; Nelson, 524; New-
man, 522; Gals and Kirtel, 511;
508; Grove, 500; Quinn, 499; Ho-
land, 498; Mead, 495.
Dickerson and Osborn won in the
doubles, with Mead and Nelson,
second, Gals and Kirtel, third, and
Cook and Richards fourth.

JANESVILLE Y. M. C. A. JUNIORS TRIMMED THE CLINTON TEAM THURSDAY

By a score of 22 to 7, the Janesville
Y. M. C. A. junior basketball team
were victorious over the Clinton
Juniors last evening. The
Clinton players lacked experience,
this alone winning for the local
youngsters. Allen starred with five
goals. Physical Director C. E. Leak
officialized and County Secretary L. A. Mar-
ham was at the game. The lineup
follows:
Janesville—Allen and Munson, for-
wards; Kelley, center; Korst and
Powers, guards.
Clinton—Dunstad and Smith, for-
wards; Reimer, center; Scott, Fursel
and Winn, guards.
Field goals—Allen, 5; Powers, 3;
Munson, 1; Kelley, 1; Korst, 1; Reim-
er, 2.
Free throws—Smith, 2; Reimer, 1.

Free throws—Smith, 2; Reimer, 1.

WITH MORE WEIGHT HE'D LICK 'EM ALL

Jim Flynn.

Speaking of white hopes, it must
not be forgotten that Jim Flynn has
the two essentials which practically
all the light colored fighters lack—
heart and bull dog courage. Were he
built like Jess Willard it is agreed by
critics that he would be heavyweight
champion of the world. But he lacks
weight and weight.

SOME FISHERWOMAN!

Mrs. Edward Zeal McLean, wife of

her return and shows a few of her

HOME FOR CRIPPLED CHILDREN IS URGED

(SPECIAL TO THE GAZETTE.)

Madison, Wis., Feb. 5.—Friends of
crippled children in the state went
before the senate state committee
yesterday afternoon and asked for
support of the Cunningham bill ap-
propriating \$25,000 for a site for a
hospital for such unfortunate. Those
who spoke were: Mrs. J. B. Winslow,
Mrs. Joseph Jacobson, Mrs. Louis
Kahlenberg, Miss Mary McGovern,
and L. M. Hauks, Madison, and Sena-
tor Cunningham said there are num-
bers of crippled and deformed chil-
dren in every city and town who
could receive expert treatment at a
home of this kind and who are now
denied it. No one appeared against
the bill.

Senator Burke spoke for the en-
dorsement of his bill requiring the
use of larger type in printing the ses-
sion laws as supplements to newspa-
pers.

The assembly committee on judi-
ciary recommended for indefinite
postponement the Spear resolution
limiting the introduction of bills by
assemblymen to ten, by senators ten
and by committees to ten each. The
same action was taken on the Beck-
with bill providing that counties may
at their option adopt the commis-
sion plan of government.

OPPOSE SUPPRESSION OF THE VICE REPORT

Strong Opposition Develops to Don-
nelly Resolution at Committee
Hearing.

(SPECIAL TO THE GAZETTE.)
Madison, Wis., Feb. 5.—Strong op-
position to the Donnelly resolution to
suppress the report of the anti-vice
committee developed at the hearing
before the state affairs committee of
the assembly yesterday afternoon.
The committee took no action on the
proposition and it is said will leave
the resolution in the committee box
until later in the session. Assembly-
man Donnelly attacked the report,
saying that it was detrimental to the
morals of the people, and especially
the younger people, to read such a re-
port. He said that no matter how
carefully the report might be dis-
tributed it would fall into the hands
of people who should not read it.

Minkley Defends Report.
Assemblyman Carl Minkley, a mem-
ber of the committee that investi-
gated vice conditions in the state,
said that of the 10,000 copies of the
report printed, 9,000 had already been
distributed and that the resolution of
Assemblyman Donnelly could only
serve the purpose of advertising the
report. He said that such an at-
tempt at suppression only made some
people curious and wonder "if the re-
port were not juicy enough for them
to read." He believed that such an
attempt would result in some pub-
lisher getting out a privately printed
edition of the report that would be
sold openly on the market.

"If you want to make this legisla-
ture the laughing stock of the legisla-
ture pass a resolution like this," said
Mr. Minkley. He said that the report
had been sent to ministers, newspa-
pers and public men who would want
the conditions remedied, if once they
knew them.

A Diagnosis of Evil.
Walter Clarke, Chicago, who
represents the American Hygiene as-
sociation, protested against the Don-
nelly resolution. He said that the
way to cure social evils was to di-
agnose the case and then administer
medicine in the manner of legislation.

remedy. Avoid dangerous substitutes.
KONDON MFG. CO., Minneapolis, Minn.

In reply Assemblyman Donnelly
said that the committee should have
reported the committee should have
published any of the informa-
tion upon which these measures were
based. Such information should be
kept locked up by the committee.
Chairman Axel Johnson of the com-
mittee read a letter from Zona Gale,
the well known authoress, protesting
against the Donnelly resolution.

TEN THOUSAND DENTISTS ATTEND MILWAUKEE MEET.

(SPECIAL TO THE GAZETTE.)
Milwaukee, Wis., Feb. 5.—One thou-
sand dentists from Wisconsin and
other parts of the country were in at-
tendance today when the Marquette
University Dental Alumni association
opened its ninth annual meeting and
clinic.

L. P. Haskell of Chicago, 80 years
old, and the oldest living dental
practitioner, will take an active part in
the clinics and make an address.
Some of the best known dental
experts of the country will demon-
strate various phases of the work in
the clinics. The latest inventions in
dental appliances will be demon-
strated and manufacturers will have ex-
hibits worth thousands of dollars. A
free dispensary will be conducted.

HEALTH HINTS.

This is the time of year when colds are prevalent, when even some of the fresh air "fenders" hesitate about throwing open the windows of their sleeping apartments, and yet Surgeon General Banks of the United States Public Health service, says:

"Breathe all the fresh air you can get, night and day. That's what fresh air is for. The fear of night air is only another of the carefully nursed insanity bequests from our ancestors."

"Whence this superstition arose may only be surmised. Perhaps it is a survival of the primeval cult of Sun worship, which led the ancients to classify anything outside the sphere of solar influence. Our forebears were careful to caution their offspring to 'be careful about the night air' or children were ordered to 'come in out of the night air.' It is perhaps fortunate for the children living in the Arctic circle, where the nights are six months long, that the Eskimoes' mothers do not entertain this crude notion about night air, else their progeny would spend half the year indoors."

This idea is generally prevalent and even one of our well-known flowers is loaded down with the horrible name of 'Deadly Nightshade' as a sort of verbal relic of this old notion. The low-lying mist or fog that sometimes gathers about the surface of the earth under certain atmospheric conditions, after sunset, was held, to be 'miasmatic' and pregnant with lethal possibilities. This is worthy of all the respect that should be put to any hoary superstition, but its place in the specimen jars of an archaeological museum, not in the show room of modern intelligent life."

"The night air, minus the sun, is no different from the atmosphere of a sunless day. The atmospheric envelope of the earth does not change from benign to malign in the twinkling of an eye after sundown. It is still composed of oxygen, nitrogen, argon and carbon dioxide in the normal proportions for the given locality. The open air treatment of tuberculosis and its kindred allies had first to combat this venerable foe before the deadly night air and only the remarkable results of this hygienic aid to its cure brought the superstitious to a realization of the silliness of their ingrained noctophobia."

"This generation has witnessed the emancipation of human beings in respect to the value of fresh air, whether in bulk or in smaller 'drafts.' From being people immersed in hermetically sealed rooms at night, breathing their own bodily exhalations over and over again, a constantly increasing number of persons are sleeping in the open, or at least with open windows, summer and winter, to their great benefit. In the morning they are refreshed with the pure oxygen of the air breathed during sleep, not 'stewed' nor 'seedy' after eight hours spent in respiring and re-respiring second-hand and shop-worn air in a closed bedroom."

"A story from the trenches in France is that a soldier wrote home to his wife to open her windows at night as he had found that the night air 'didn't hurt one bit.' That is the experience of all the advocates of this sensible custom—once tried the old custom of sealing one's self in an airtight bedroom is never renewed. Diseases which involve the lungs can usually be traced to their beginning in poorly ventilated sleeping apartments, inside rooms that do not have a share of the atmosphere. Nothing

can live well or long without oxygen in the air, and it was given to us for breathing, night and day, not to be taken in sparingly, as if it were a dangerous potion. Some people are actually afraid of ordinary, common air."

"These emancipated persons who open their windows at night will tell you, unanimously, that they cannot breathe in a chamber unless the window is raised, their sense of comfort and vigor demands the life-giving qualities of fresh air. No greater prophylactic advice can be promulgated than to breathe all the fresh atmospheric air you can get, night and day."

TIME FOR ACTION.

With the request of the state board of agriculture for appropriations approximately a half million, for improvements to the state fair park at West Allis, Milwaukee, reports on file for many years past showing that the annual state fair has been run at a loss to the state and the apparent indifference of the present state board of agriculture to the agricultural, horticultural and live stock interests of the state, why is not the time opportune to move the fair from Milwaukee?

Let the state sell its property, in West Allis at the market price, use half the appropriation asked for by the present board and establish the fair in some agricultural center. Some of the state be it at Madison, Oshkosh, Fond du Lac, or some other locality, where suitable land could be obtained and a fair in the interests of the agricultural departments be held annually.

Two years ago there was such a movement but the conditions were not ripe for its consummation at that time. With the present legislature composed of men for the majority conversant with practical farming interests such measures might receive more consideration. The fire and storm which swept over the state fair park last year did so much damage that many new buildings will be constructed if a successful fair be conducted. Why spend the money on a proposition that has proven a failure?

Why spend good money after bad? Why not move the fair to some location where it will be a paying venture? Where the receipts will not be eaten up by the expenses and the state legislature asked to make up deficits that a political board of directors can further entertain their friends with cheap horse races, questionable vaudeville and side shows to the exclusion of the real agricultural interests of the state? It is worth considering.

PAPER BLOCKADE.

Germany has formally announced a paper blockade of the English sea coast and warned neutral ships to keep out of the danger line. According to dispatches, floating mines, submarines and even German battleships will enforce this blockade, the idea being to starve England out if possible. With Germany taking this stand, England protesting against the sailing of vessels from American ports under American register, with foodstuffs for the Germans, one may expect strenuous times the next few weeks until matters adjust themselves. There is a possibility that Germany has mined the seas about the British Isles and has enough submarines on duty to enforce its orders, but it is doubtful. Meanwhile American shippers will be loath to send their products into danger zones of this nature and real hardships will result unless England gains complete control of the situation by some decisive naval engagement and clears the seas of its hidden terrors.

ENDORSES ALEXANDER.

By a vote of seventeen to fifteen the senate on Thursday confirmed the appointment of Walter Alexander, as member of the state railroad commission. By so doing they named for office a man well fitted and equipped for the duties that he is to undertake. Walter Alexander has risen through the various ranks of his profession by the strictest attention to details. It was senseless talk to say he would be biased or influenced in his decision because he had been a former employee of a corporation whose interests might conflict with the opinions of the commission. Mr. Alexander is too big a man for that and his endorsement by the senate in the face of the opposition of the La Follette members is most satisfactory to his friends throughout the state and speaks well for the future efficiency of the commission of which he becomes a member.

If anyone thinks that President Wilson is going to be content with one term he is mistaken. He is just preening his wings for further attempt to be the one man in the United States next year.

Doubtless the reason that the Chicago tailors could not find a perfect man to use for exhibition purposes was that he was married and forced to wear hand-me-down clothes.

Even the hens realize that spring is coming at last and are most eager to catch up with long unfiled orders for supplies of their product.

Failure to pass the immigration bill over the president's veto will postpone this measure to another session of congress.

It looks as though that ship purchase bill was going to be wrecked on the rocks of senatorial objection even before it is safely launched.

It is fortunate just now that man does not live by bread alone, with the price of wheat soaring way beyond the average man's pocketbook.

Down in Mexico the Carranzistas appear to have taken a new lease of life or received a new financial backer or something of that kind.

How about the evil persons fearing to walk in slippery places these days? A trifle more sand please.

If that ground hog had anything to do with this February thaw and February freeze he should be taken out and shot.

The legislature is getting down to work with a vim. Before they finish their session they will have demonstrated that they mean business.

AMERICANS IN TURKEY FACE LITTLE DANGER

Yankee Interests Guarded by Board of Commission for Foreign Mission.—Fly Flag Above Buildings.

More than 200 people located in more than twenty stations and twice as many outstations represent the American Board of Commissioners for Foreign Missions in Turkey and the Balkan states at present. With fighting going on in practically all directions around them it is reassuring to know that the mission schools are proceeding as usual, with full attendance; the mission property is respected; and in most cases the missionaries are being treated with consideration. Some supplies consigned to mission stations, notably medicines, have been requisitioned, but friendliness to Americans has seemed to be the rule.

Trebizond, on the shore of the Black sea, reports that it was expedient to fly the United States flag over all the buildings for a few days. Quiet soon followed, however, and business proceeded as usual. Erzurum, forty miles from the Russian frontier, and Van, in eastern Turkey, have been nearest actual battle grounds. In Erzurum the boys' school and the girls' school—large, well built houses have been thrown open for the use of the wounded brought in from the country round by Dr. Claret of Sivas, who left his hospital in charge of his native assistant and came to assist in the operating and in the different treatments necessary in taking care of men suffering from wounds and exposure in the intense cold of that mountainous region. Miss Mary L. Grafton, one of the Sivas missionaries, also went to help at Erzurum, leaving her school of 700 girls in charge of the assistant teachers. Dr. Usaher of Van, has also been very busy with hospital work.

The Russian, French and English consuls had left Van by mid-November. Dr. Claret of Sivas, who left his hospital in charge of his native assistant and came to assist in the operating and in the different treatments necessary in taking care of men suffering from wounds and exposure in the intense cold of that mountainous region. Miss Mary L. Grafton, one of the Sivas missionaries, also went to help at Erzurum, leaving her school of 700 girls in charge of the assistant teachers. Dr. Usaher of Van, has also been very busy with hospital work.

Within a week the officials of the Board in Boston have received letters from more than two-thirds of its stations in Turkey. Some of them have been more than a month on their way, some even longer; some are written in German, some in French, although the ban on the use of English has now been removed and correspondence will doubtless from now on be easier.

Dr. Barnum of Erzurum, not far from the Sea of Marmora, writes reassuringly of the safety, health and comfort of the Americans in that city of 75,000 people and says there is little to remind one that the land is not in its normal condition of peace. At Adana, south of the Taurus mountains, Dr. W. N. Chambers reports that Americans are favored. The new building of the girls' seminary is unusually full and the hospital is doing all it has room and money for.

The international college at Smyrna

is going on as usual, though with fewer students than a year ago. President MacLachlan finds the government and military officials all friendly to the schools.

In Marsovan, near the Black sea, the French have been obliged to close their schools and leave the city, but President George E. White, of Anatolia College, finds that the Ottoman officials deal with American interests in a friendly manner. Harpoot, Marash and Diarbekir and Mardin, in central and eastern Turkey, all report quiet conditions, gratitude on the part of the people for help rendered and splendid chances for Christian work. Many of the letters speak of the distress among the poor and of inability to give relief for lack of the usual supplies.

Cities in which are Turkish bar-

racks or which are on the route of the troops report little enthusiasm on the part of the soldiers and frequent desertions. From the Coria barracks 300 Arabs deserted in a body in one night; of 11,000 soldiers started from Diarbekir to Erzurum only 4,000 reached that place—the others having deserted on the way. The old "Camel Corps," the Hamidieh, which was called to the colors again and sent to the front has apparently dissolved. Nearly every company has returned to its village saying it's no use to stand against Russian artillery. The war does not seem likely to spread to the interior districts and all signs point to the fact that the American missionaries are trusted and their teachings welcomed as never before.

A REAL FISH STORY IN THE USUAL FORM

That's the Police Verdict of the Alleged Theft of 3,000 Pounds of Frozen Pike.

Police investigation of the theft of "three thousand pounds" of frozen fish from the freight car on North Main street, Wednesday night, has led to the fact that the tale was an excellent "fish" story that was badly told and enlarged after the usual fashion of such narratives. Chief of Police Champion declared that if any fish were stolen from the car it was only a limited amount, and claims that Sol Schapiro, transient fish salesman, was mistaken in the statement that a wagon was employed in carrying the stolen fish away.

Yesterday afternoon a railroad engineer reported to the police that he and his wife, while walking down Main street, saw a man crouching in the shadow of a car with a gunny sack under his arm. Police looked into the alleged robbery could find no tracks of a wide wheeled wagon and there was a vast difference in the opinions of the police and the employee as to how wide these tracks were and where they led to. The fish salesman refused to make a complaint against a suspected party this morning so as to obtain a search warrant by which the police could hope to apprehend the supposed thief. The opinion expressed by Chief Champion was that some of the Italian section men who had been on the tracks where the car stood, on a few of the fish. But as to the wagon, one of them said the authorities say they are from Michigan.

The padlock with which the door was locked was found this morning, and Chief Champion questioned the guard as to his knowledge of the affair late this morning.

PIONEER OF COUNTY DIES AT FOOTVILLE

Mrs. Emeline Davis, Old and Respectful Center Resident, Passed Away at Footville.

(SPECIAL TO THE GAZETTE)

Footville, Feb. 5.—Mrs. Emeline Davis, aged 83 years, an early pioneer of Rock county, passed away last evening at the home of her daughter, Mrs. Viola Torrey, following an illness of two weeks, resultant on a stroke of paralysis, consequent on a fall in which the aged lady suffered a bad hip fracture.

Mrs. Davis is the widow of the late Watson Davis of Center, who preceded her in death by several years. She deceased had been making her home in Footville with her daughter for the past four years.

She was born in New York state Aug. 17, 1832, and when a little girl, came west with her parents and settled in Michigan, her parents being among the early settlers. She took up tracts in the newly opening west.

She is survived by one daughter, Mrs. Torrey, and four grandchildren, Mrs. Emory Dunbar, who lives near Footville; George Davis of Cleveland, and John E. and Frank L. Davis of Center.

Mrs. Davis was a member of the Christian church. During the period of her residence here she drew about her circle of loving friends who sympathized deeply with the bereaved family.

The funeral will be held Saturday afternoon at one o'clock from the home of Mrs. Torrey.

HOLDS SUGAR PLANT ILLEGALLY ASSESSED

Judge Grimm Sustains Contention of Company That Property Was Overassessed.

Judge Grimm in a decision filed in the clerk of the court's office, sustains the contention of the Rock County Sugar company that the assessment placed by the assessor by the board of review of the town of La Prairie upon the company's property was illegal and without jurisdiction in view of the fact that no testimony was presented at the hearing to controvert the testimony of the company that their property was overassessed. The judgment reverses the action of the board of review and assesses the court costs against the township. This leaves the sugar company's plant unassessed and makes necessary the placing of a new assessment next year which will also be the basis for the collection of taxes for 1914 as well as for 1915.

The action was brought in the circuit court upon a writ of certiorari secured on the part of the company ordering the town clerk to produce his record of the assessment proceedings before the circuit judge. The township valuation of the property was fixed at \$200,000.

STREET DEPARTMENT WORKING OVERTIME

Sudden Thaw, Freeze-up, Rain and Threatened Storm Keep Them Busy—Sidewalks An Ice Glare.

The following dispatch was received at 1:05 o'clock this afternoon at the Chicago, Milwaukee and St. Paul railway depot: "Bad storm is approaching from west. Probably reach us tonight. Expect drop of 25 degrees in temperature."

These are strenuous days for Street Commissioner Goodman and his crew of workmen. The sudden change in temperature accompanied by the rain, followed by a freeze-up, has left the streets and sidewalks a glassy glare and the gutters, cleaned after the storm early in the week, soon became clogged up. The flow of water added to the discomfort of the pedestrians. The Milwaukee street bridge was one of the few places in the city not cleaned off at noon today, the majority of the sidewalks in the business district being scraped to the cement. However, in the words the walks are in terrible condition and the fact that sand salt or ashes were soon washed away made them a problem.

August Bogardus fell on a slippery walk on West Milwaukee street, near the bridge, severely spraining an ankle and numerous other minor accidents are reported, the majority of them being bad falls in which the unfortunate individual was severely drenching from overflow water. Nor were the middle of the streets much better walking. While the street department had a large force of men working today on gutters and storm sewers and the value of the big new storm sewers was demonstrated by their ability to handle the unusual stress of water.

Government weather reports say that rain, changing to snow, with a drop in temperature in the next twenty-four hours. However, the railroad companies have received word to clear up all perishable freight and have track men ready to clean tracks as a storm is approaching from the west, due here tonight, with a drop of twenty-five degrees in temperature.

A Good Loser.

But though he is a adversary he is above all things a good loser. He does not like to lose, but he can take his losses without growing surly or ill-tempered. He does not blame his partner for his card; he keeps pleasant in spite of mistakes and disappointments. In his card, he keeps in mind that it is only a game and so does not matter after all, but because he knows he can never go to take losses of any kind.

Finally he never forgets that in a game there are no winning or losing, nor playing well or badly. He counts nothing, neither winning nor losing, nor playing well or badly. He counts as being square. If he is in the doubt, and he would rather lose a deciding game than take the unfair advantage.

Surely the man who can win all these qualifications of a "good" player will also be a good player in the game of life—the kind of partner one need not be afraid to accept.

A Thanksgiving Sermon

By REV. JAMES M. GRAY, D. D.
Dean of Moody Bible Institute
Chicago

TEXT—We know that all things work together for good to them that love God.—Romans 8:28.

This is one of the texts of Scripture that always comes into the mind around Thanksgiving time. It has preached many a soul-inspiring sermon to the Lord's meek and poor afflicted ones during these long nineteen hundred years. In many an hour of trouble it has been their consolation and in many a happy moment their chief joy.

(1) There is a kind of certainty about this text that gives it a peculiar value. "We know that all things work together for good." It is not a surmise but a conviction; not a conclusion based merely upon the testimony of others, but a possession of our own experience. We know it from the word of God, and we would rather trust that than our own understanding. We know it indeed from the very nature of the case, for given the existence of a God, holy, just, all-powerful and good, it must be as the text says. To deny it is to deny God. We know it from the history of the world and of mankind whose pages are illuminated with its truth, but especially do we know it from the record of our own lives. If we are true Christian men, and women we can look back over the past year in all its vicissitudes and set our seal to it as fact.

(2) There is a universality in the range of the text which gives it a peculiar value. "We know all things work together for good." What a measureless compass there is in that declaration! In the mind of the inspired writer, the "all things" as indicated by the context, are very especially "the sufferings of this present time"; but there is no reason why we may not employ the language in the broadest and most comprehensive sense. Things known and things unknown, defeats and victories, losses and gains, the small and the large, all are working together for good to them that love God. It is easy to believe this when all is prosperous and happy, but faith clings to it when the clouds lower and the storms rage. It is that which distinguishes the Christian from the man of the world.

(3) There is a sense of divine activity in the text. "All things work together for good." God does not allow things to come to pass by chance, but has an arrangement in everything, a plan, a purpose bringing forth effects. He is continually subverting and conserving, scattering and bringing together, in order that he may find stones to polish for a temple into which he may enter and permanently abide.

(4) Then think of the harmony expressed—"all things work together for good." There is no discord or opposition in the heavenly councils, though we may not always perceive this with our eyes of flesh. Like Hannah More's dialogue of the two weavers, we may sometimes think that—

The good are troubled and oppressed,
And all the wicked are the blessed.
But when we reach that world of light,
And view these works of God aright,
Then shall we see the whole design,
And own the work is all divine.

But finally, it is the particularity of this text that we need most to dwell upon. It is to "Them That Love God," and to them only, that all things work together for good. But men in their natural state do not love God, nor can they love him. There must be created within them the clean heart and renewed within them the right spirit before they can love God. And this is God's own work in them, which he does when they believe his testimony concerning his son, Jesus Christ. Have you done this? Have you yet by faith received Christ as your Savior and confessed him as your Lord? There was a time when Paul who wrote these words, did not himself love God, though he was very religious and very active in his religion. But one day he saw Christ in the glory and submitted himself to him, and all this was changed. He then loved God because he had come to know that God first loved him and sent his son to be the propitiation for his sins.

And so this text gives us Paul's own testimony. He had had a wonderful life especially after his remarkable conversion. Read his own description of it in Second Corinthians from Chapter 11, Verse 21 to Chapter 12 Verse 13, and see what it must have meant to him to utter such words as these. In everything had he seen the hand of God so vividly and the most unpromising circumstances redound to his own good, that no mathematical proposition could have been more clearly demonstrated to him than this.

That's All.
"I did not think you would associate with such a man." "I shan't associate with him much; I am merely going to marry him."

Ruth Chooses The True God.
(The Story.)

Elimelech's going to Moab was ill advised. It came of feeble faith and impatience. He could not endure hardness as a good soldier. The consequences were disastrous—three widows, three widows at best. But a faithful soldier, and a true and true widowhood and a true and true widowhood in a foreign land and childlessness, and an environment of that all is the consequence of sin—this is the climax of Naomi's woes. But God and angels know that the solitary exile widow is rich. Her riches are not of the kind reported on the charge of the king. They are not "watered," nor can they be hypothesized. Naomi's wealth is in herself; her character is her capital. It presently yields its rich return, that confessedly trying relationship, the marriage, in scenes ever shifting to the worst, bereaved, impoverished, estranged, nation, and such traits of resignation, gentleness, and purity as to win the undying, disinterested love of Ruth.

On the border of Israel, Naomi put her new-found love to its test. She threw the gold she found without trace of alloy. The young Moabitess was willing to be expropriated and excommunicated, to live a life of toil and poverty, to be subject to the scorn of bigoted Israelites; to surrender an Oriental woman's fondest hope, her almost indispensable safeguard, her almost indispensable love, her love that had never been portrayed by poet or novelist. To have acquired such a love was to have acquired an incalculable fortune. It was Ruth's love of Naomi that directed her steps to the harvest-field. It lightened the menial task of the gleaner. It served her to endure the rude familiarity of the harvest-hands. It prompted her to glean diligently. It was Ruth's love of Naomi that prompted her to do that last thing which taxed her modesty to the extreme. She lay down at Boaz's feet in order to claim his right to Naomi lawfully in the name of her kinsmen and countrymen, and secure her a shelter and support. In that act, she was availing herself of the legally-instituted means of accomplishing her laudable end. Well may that towering column against the waste of Solomon's golden temple—symbol of strength, beauty, and uprightness—bear the name of this Bethlehemite prince, Boaz. His many self-restraint, his delicate consideration, his strict adherence to legal form mark him the warrior-hero-judge, worthy the name he bears.

Faintly, and in a figure, this Redeemer and redeemer. The outcast, pitiable, and remediless state of the sinner; the riches of the Savior; his gentleness, compassion, and might; the necessity of casting one's self upon him in simplicity and loving trustfulness—all are pictured in fascinating form. It is this evangelistic characteristic which lifts it out of the sphere of an amorous fiction and gives this gem of an idyl and unimpeachable claim to its position in the sacred canon.

The Teacher's Lantern.
It was "out of the frying pan into the fire," that exchange of Canaan for Moab. The one redeeming feature was that the Hebrew family kept their faith. In return, the Canaanite, chastened, guided, and delivered, Naomi was a revelation of God to Ruth. She recognized the supernatural source of her traits, as well as their superlative loveliness. It was a small thing to exchange Canaan for Moab, since Naomi had made him attractive. Orpah stands for the half-hearted Christian, the undertaker of the impossible, serving God and mammon. It usually ends in going back to Moab. Ruth was steadfastly minded. She is a lovely example of perseverance. She lost her life in the complete renunciation of Moab. She gained it by her adoption in Israel. To become an ancestor of the Messiah was her exceeding great reward. A young Englishman is said to have sought his fortune in California, leaving his fiancée behind him. By and by he sent her a nugget of gold. Afterwards, meeting with reverses and losing health, he wrote to her, expecting her to come and nurse him. He had upon her. In response, he received a ring made of the gold he had sent, and instructed with the legend, "Expect me not to leave thee." Boaz is an ideal of manly virtue. He was a white life. He was far beyond this day in self-restraint and virtue. He was a noble type of him in whom was no fault. There is exemplary power in the Christian life lived in the midst of non-Christians. Witness the influence of Naomi in Moab: a Christian home planted in a non-Christian environment can not fail in salutary and illuminating effect. The Book of Ruth is the old Testament echo to the New Testament declaration that "love is the fulfilling of the law." The induction of Ruth, the alien Moabitess, into the Hebrew Church is a cheerful prophecy of the millennial time when all racial walls of partition shall be broken down, and the kingdoms of this world become the kingdoms of our Lord.

WHAT CAUSES COLDS?

This question and "How to Prevent Colds" is asked a thousand times every day. A cold is really a fever, not always caused by the weather but due to a disordered condition of the blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the body better able to withstand the varying elements.

This is the underlying reason why the medicinal fats in Scott's Emulsion quickly overcome colds and build strength to prevent more serious sickness. It contains nature's medicinal fats, so skillfully prepared that the blood profits from every drop, and it is free from harmful drugs or alcohol.

Christian Exhortation That Counts.
(Anniversary Day.)

Culture of the soul is the supremely important concern of life for the soul is all that survives. It goes with the saying that continuity of culture must be conserved and carried steadily forward. The satisfaction in the fact that this is the one undertaking in which success is assured. This training and refining of the spirit cannot be in vain. The shores of time are strewn with the wreckage of other human endeavors and projects, commercial, scientific, social, but here is one craft which heaven underwrites to make its port. One must, however, keep at the helm, steadfast and unmoved. The end crowns the work. The soul, a full-fledged argosy, will at length drop anchor in the sea of glass before the throne. Angel hands will help! The sails. Thanks be to God! He giveth the victory!

Edgerton News

Edgerton, Feb. 5.—A basketball team, composed of some Edgerton boys, played the Clinton team at Clinton last evening. The game was easily won by the Edgerton team, the resulting score being 29-11. The lineup for Edgerton was: Charles McIntosh, center; Harold Sutton, left forward; Clyde Ogden, right forward; Robert McIntosh, right guard; Richard Brown, light guard; Clayton Williams, reserve.

Overnight Relief For Constipation

When the bowels become clogged with a mass of poisonous stomach waste, sick headache with all its attendant misery, belching of sour stomach gases, bloat and general discomfort are sure to follow.

A mild, pleasant laxative- tonic that will carry off the congested mass without upsetting the stomach or griping the bowels; is the combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A dose taken just before retiring will afford grateful relief next morning, without unpleasantness or discomfort.

Dr. Caldwell's Syrup Pepsin is the ideal family remedy, especially for the women and children and old folks. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ills.

Reduction No. 3 On Goodyear Tires Making Total Reductions 45% in Two Years To Give Always the Most for the Money

We are glad again—for the third time in two years—to announce a big reduction on Goodyear tires effective February 1st.

Goodyear policy on price is to give the utmost in a tire at the lowest possible profit. Our reductions are made to that end, without ever reducing the quality.

That always means, with our matchless output, more for the money than any other maker can give.

As rubber came down our prices came down. As our output multiplied, reducing factory cost, our prices came down with it. In two years our reductions—including the present—have totaled 45 per cent.

Last year we increased our output 25.6 per cent. A few days ago the embargo on rubber was modified so that supplies seem assured. The market price for rubber seems for a time established. Fabric costs less than last year. So, under our minimum profit policy, we announce this new reduction.

Most tires will always sell higher because of smaller output. Some tires will always sell lower because of lower standards. But we promise you that none will ever give better than Goodyear value.

This policy has made Goodyear the largest-selling tires in the world. It will make them more so as more men find them out.

Ask your Goodyear dealer for our new price on the size you buy.

The Most Universally Read Page in the Paper

The Want Page offers an opportunity to the small advertiser that spells success if taken advantage of.

This is the most widely read page in the paper, if one page can be said to attract more than another, because it contains every day new offers, new bargains and fills new wants. Nearly everybody reads the want ads. It is time most interestingly spent even if you are not looking for anything in particular.

The rate of advertising is low. Three-quarters of a cent a word cash or a cent a word over the phone. Want ads may be left at Baker's Drug store if desired, with the money.

THE RATE FOR ADVERTISEMENTS—These classified columns are one cent per word per insertion. Nothing less than 25c accepted. Cash discount 25 per cent if paid at time order is given. Charge accounts 1 cent per word.

FORTY YEARS AGO

The Janesville Daily Gazette, Feb. 5, 1875.—Down to 19 degrees below this morning, but fortunately no wind. The trains from Milwaukee and Madison came through today for the first time since Tuesday and vice versa.

The free reading room of the Ladies' Temperance Union was formally opened on Tuesday. Speaking and music was held in Mitchell's hall, followed by an oyster supper in the social rooms, in the same building.

The shoe factory is in good running order and everything is in ship shape trim. They are manufacturing a superior class of shoes here.

Mr. Davis, the gentlemanly clerk at the Davis House, is seventy-five years old, and yet he is good for a good many more.

Mrs. L. McIntosh, of Woodstock, Illinois, will speak on temperance in the rooms of the Young Men's Christian association, across from the postoffice, tonight at half past seven. The lecture is free to all.

AMUSEMENTS

AT MYERS THEATRE.

The second episode in the thrilling story-picture, "The Master Key," will be shown at the Myers theatre tonight. The first installment proved such a remarkable picture to the movie fans that the interest in this picture is at fever height and it bids

fair to rival in popularity that greatest of all pictures, "The Grey Heart." In addition to "The Master Key," the Chicago Herald Movies will be shown tonight. These pictures have a large following. They depict late interesting events in and near Chicago in a manner impossible in any other way than with the cinema

camera.

AT MYERS THEATRE.

Only ten of the smaller cities in this country are to be visited during the present season by De Wolf Hopper and the famous Gilbert and Sullivan Opera company which comes to the Myers theatre on Monday and Tuesday, February 8th and 9th, for three performances only, direct from their annual season at the Auditorium theatre, Chicago. So far this company has played only those larger centers of population where a stay of

not less than a week would prove profitable, but this year there was such an incessant demand from music-lovers in the more important smaller cities near Chicago that William A. Brady, under whose direction the company is appearing, decided to devote two weeks to a brief tour of them. Following these two weeks Mr. Hopper and his associates will go to Philadelphia, Boston, Baltimore and Washington for brief engagements preliminary to the playing of the annual spring season at the Casino theatre, New York City.

LADIES' LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggy, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

MAY TEACH VAGRANTS SCIENTIFIC FARMING

[SPECIAL TO THE GAZETTE.]

Cleveland, O., Feb. 5.—A plan to give the recreant "vag" a hand at scientific farming by putting the 2,000 acres of Waverly Farm, Cleveland, great corrective institution, under scientific cultivation, is being worked out here today.

Not only the tramp who comes out of the police courts with an enforced vacation tagged on him, but every prisoner would be given an opportunity to tend his little patch of onions, carrots, peas, corn or whatever the case might be.

The major portion of the farm will be cut up into plots of forty acres or so in order that experimentation can progress on a larger scale than is now customary on state experimentation farms. A complete and scientific record of the crop from "seed to shuck" would be kept by experts.

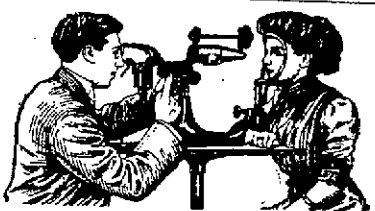

The proposed project is being put into form on the assumption that Western Reserve university and Case School of Applied Science here may some day be merged into a municipal university, requiring a course in scientific agriculture.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat if you Feel Backache or have Bladder Trouble.

Meat forms uric acid which excites and overloads the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

Your time is worth too much to you to make a personal canvass in Janesville. A few minutes will give you at a glance the offers of the best real estate firms in the city. These appear in Gazette Wants.

FIX MINIMUM WAGE AT SIXTY DOLLARS

Milwaukee Assemblyman Proposes Fifty Per Cent Raise in Minimum Salary of School Teachers.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 5.—An increase

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

of the minimum salary of school teachers in the state from \$40 to \$60 a month is proposed in a bill that has been introduced in the assembly by Assemblyman Kent of Milwaukee. The last legislature fixed the salary at \$40, and this bill proposes a 50 per cent increase in this minimum. According to a report of the state superintendent of public instruction just issued there are 140 male teachers and 3,901 women teachers who receive a salary over \$40 and under \$45; 86 male teachers and 1,421 who receive a salary between \$45 and \$50 a month; 84 males and 573 women who receive between \$50 and \$55 a month, and 44 males and 132 women who receive a salary between \$55 and \$60 a month. All of these classes will be affected, if the Kent bill is enacted into law.

Assembly Passes Bills.
The assembly has passed the Martin bill eliminating the second choice feature in the election of judicial officers and members of the school board in Milwaukee; the Burke bill removing the designation of "non-partisan" as a party label from the judicial elections of the state and the Laurson bill giving the chairman of the county power to fill a vacancy in the office of the county clerk, until a meeting of the county board.

Assemblyman Woodward of Chippewa introduced a bill cutting the state aid in road building from \$1,200,000 annually to \$800,000, and gives the

county board entire power of supervision, the contracts to be approved by the state highway commission, however.

NEW MEASURES PROPOSED.

Assemblyman Fredericks presented a bill giving the railroad commission power over transmission lines and regulating their proximity to telephone lines; Assemblyman Altenbacher, a measure requiring the use of the Babcock test in all cheese and butter factories; Assemblyman Kent, a measure that slight contributory negligence on a street car shall be no bar to an action for damages; Assemblyman Weber, a measure giving a jury trial for alleged violations of injunctive orders in labor disputes; Assemblyman J. T. Laing of Waukesha, a bill giving cities of the third and fourth class power to own a municipal cemetery; Assemblyman Hedding, a bill making the procurement of legal cases for "ambulance chasers," etc., a cause for disbarment of a lawyer; Assemblyman Pieper, a bill giving counties and towns the right to own and operate dams.

FOUR BOILERFULS OF SOUP CONSUMED BY MILWAUKEE POOR DAILY AT STATIONS.

[SPECIAL TO THE GAZETTE.]

Milwaukee, Wis., Feb. 5.—The poor on the south side are consuming four boilerfuls of soup daily at the exchange of the city. Meat is contributed by the packers in that vicinity and potatoes are provided by public school teachers.

The soup is doled out from the Fourteenth ward relief station, presided over by Alderman Kryzycki. A card index system is kept to determine the needs of the people and to prevent "repeating" too often. Every person who says he is hungry, Alderman Olson, of an adjoining ward, had an oversupply of clothing and transferred part of it to the Fourteenth ward station.
